

## White Line Range

# Wisconsin

The Wisconsin is another great party tent but, unlike the Florida, its partly gauzed windows have covers enabling you to control the light while keeping the walls in place. The sides and ends are zippered and they can either be rolled up out of the way or propped up as porches. Made from a hard wearing fabric, with a Toflex frame, the Wisconsin can easily be adapted to suit a wide variety of different purposes. It is available in all white or blue and white.

- Covers for windows
- Side and end awnings
- Choice of white or blue and white
