

8m Jurte

Black 8m Jurte with weather flaps to protect the joint where the full roof meets the sides. Flaps make an excellent weather seal as they cover the edge where the sides are buttoned on to the roof. The 8m tents are not designed to be joined together so they are offered with no options.

This is 50m² of tent that you can have a fire in - an ideal communal space for large groups, yet still easily transportable in a car.

Base product set consists of:

- 1 x 8m roof with weather flaps
- 1 x XL roof cap with weather flaps
- 7 x XL double side panel (side height 209cm)
- 2 x XL single side panel (side height 209cm)
- 16 x telescopic side poles
- 16 x 4.5m guy ropes with stays
- 16 x 50cm steel T-pegs
- 1 x robust deadblow mallet
- 1 x roof chain
- 1 x 10m poly-hemp rope
- 1 x double pulley
- 3 x centre poles (3 piece, 510cm, 67mm dia.)
