

Ohio and Rio Grande

The Ohio and Rio Grande range of round tents offer even more space than their perfectly formed cousins. Taller and wider, yet still simple in design, easy to erect and sturdily constructed. Both models come with air vents built into the tip and an overhanging edge for drips. Factor in the ability to roll up the sides on the Ohio and Rio Grande and you have yet another fantastic tent for all small group activities.

- Perfect for group activities
- Roomy and comfortable
- Easy to transport and put up
